

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is exactly why the consolidation of media threatens the discourse necessary in a democracy.

The FCC must take action and investigate Sinclair's behavior and their apparent abuse of the public airwaves. As the number of media owners dwindle in America, the opportunities to influence elections grows.

Sinclair must not get away with these sort of manipulations. Our democracy is at stake here at home.

Thank you.
